If any condition or warranty is implied into the Agreement under the Competition and Consumer Act or other laws then Superloop's liability (if any) for breach of that condition or warranty in connection with any goods or services Superloop supplies under the Agreement is (in relation to a Business Customer) limited to re-supply, repairing

or replacing the goods or services, where those goods or services are not of a kind ordinarily acquired for personal, domestic or household use and where it is reasonable and fair to do so.

14.6 If the Customer has contributed to any Loss or damage the Customer is claiming against Superloop, Superloop's liability is reduced to the extent of the Customer's contribution.

16.5 If an Intervening Event occurs which affects a Party (the said Party) from performing any of the said Party's obligations under the Agreement (other than an obligation to pay money), then the said Party will not be liable for failing to perform that obligation provided:

17. Special terms and conditions applicable to the Service

17.1 In the event a Customer relocates, the existing service can only be terminated and any applicable cancellation charges will apply. Then the Customer can submit a new application for a new service for the new location/Premise and the relevant new application charges and new terms and conditions are applicable.

17.2 The Customer acknowledges and agrees that excessive use of internet peer-to-peer file exchanges may cause network congestion and performance deterioration. Therefore, Superloop has a right to, from time to time and at any time, limit the Customer's internet bandwidth available for peer-to-peer file exchanges and or cancel the Customer's service.

17.3 Installation, 1st month pro rata and ongoing monthly access charges will be debited to the Customer's bank account or credit card which they have provided to Superloop at the time of Application or subsequently changed via the Broadband Secure Users Facility on the following basis:

This charge will be applied in full as a credit to the first invoice of the Customer, or as soon as is practicable thereafter. If the Customer cancels the Service prior to the issue of the first invoice and no other fees or charges have been levied, then Superloop will refund the verification charge in full.

17.5 Speed Tier Speeds represent the maximum speeds at which NBN Co will allow data to be transferred across the access line connecting the Premises to the relevant Point of Interconnection (the Access Line) on the Customer's selected speed tier.

17.6 Actual data transfer speeds at the Premises may be less than the selected Speed Tier Speeds, particularly during peak periods. Many factors affect the data transfer speeds achievable at the Premises including but not limited to the connection technology used, the distance of the Premises from the node, the condition of the cabling in the wholesale Supplier network and within the Premises, the Customer equipment being used to facilitate broadband connection, the application being used by the Customer and traffic volumes across the broader network.

17.7 Superloop is unable to confirm the maximum data transfer rate that a Customer's FTTN or FTTB Access Line is capable of (**Access Line Capability**) until after the Service Start Date.

17.8 If Superloop reasonably believes it is in the best interests of the Customer to do so (for example, if Access Line Capability is found to be substantially less than the Speed Tier Speed of the Customer's selected speed tier), Superloop may offer the Customer the option to downgrade the Customer's selected speed tier to a speed tier capable of being supported by the Customer's Access Line Capability. If Superloop does this:

- a) from thirty (30) days from receiving notice of the offer, the Customer may:
 - i) cancel the Service without penalty and without incurring charges other than Accrued Charges;
 - ii) request Superloop to downgrade the Service; or

Unless provided by Superloop as part of the service, it is the responsibility of the Customer to ensure that a network compatible modem/ router is used to connect to the service. If a non- network compatible modem/ router is found to cause a service fault, Superloop may not be able to provide assistance and in the event of an on-site technical visit Superloop may charge an incorrect call out fee.

17.10 If the Customer has purchased a modem from Superloop and the new broadband service does not proceed to activation for any reason, the Customer may return the modem to Superloop in original condition within 30 days of first receiving the modem (Superloop will provide a pre-paid shipping satchel) and Superloop will refund the modem purchase price. If the modem is not returned within the above timeframe, or is not returned in its original condition, Superloop will not refund the modem purchase price.

17.11 If the Customer receives an inclusive modem as part of the broadband service from Superloop and the new broadband service does not proceed to activation for any reason, the Customer must return the modem to Superloop in original condition (Superloop will provide a pre-paid shipping satchel) within 30 days of first receiving the modem.

If the modem is not returned within the above timeframe, or is not returned in its original condition, the full modem price as displayed on the Superloop website and a \$20 (inc. GST) freight charge will be payable by the Customer.
