¹ As of the 1st of April 2016, NBNco introduced an nbn 'New Development Fee' which you may be charged if you're applying for the very first nbn connection at a premises that resides in an area designated as an nbn 'New Development Area.'

² If you are in an nbn FTTN area, and request an additional copper lead-in, an nbn 'Subsequent Installation' charge will apply.

³ On occasion, some sites will present a higher degree of difficulty and complexity to install or relocate the service or may require additional materials not covered by the 'Installation & Activation' or 'Relocation' fees.

⁴ An NBNco or Wholesale technician fee for service will be on-charged to you when a technician is dispatched for a service repair where there is no fault found within the NBNco or Superloop Wholesale network, and it is determined that the fault lays beyond the Network Boundary Point (NBP), or within your internal network, network equipment, or device(s).

⁵ Hardware prices include express shipping. Amazon eero 6+ devices are only sold to customers who sign-up for, or already have in place, a Superloop internet service.

⁶ 'Administration & Other' fees will be charged to the customer gaining the service, including the 'Change of Ownership Fee.'

⁷ Superloop may charge you the 'Order Withdrawal Fee' for any reasonable costs incurred in preparing to provide the service(s) to you.

nbn services are not available in all areas or to all premises. NBNco and other nbn logos and brands are trademarks of NBNco Limited and used under license. Superloop does not offer home broadband services using the nbn Fixed Wireless technology.

Where CGNAT is available, your IP address will default to using CGNAT. When opting out of CGNAT, a dynamic public IP address will be assigned to the service, however you may request a static public IP address (at additional cost). If you experience any issues pertaining to your CGNAT service, please contact us on 1800 57 87 37 or chat with us online.
